

## **SBB Bears Club**

Hello everyone! The State Bank of Bottineau is excited to announce that we will be starting a Youth Savings Program. The goal of this program is to get youth involved in banking and to teach the importance of saving their money. The program will be for youth 12 & under who have a savings account in their name. This could be an existing customer, or any new customers from here on out. We are working with local business to provide rewards for the children who are involved with the club. This will range from a voucher for a free ice cream cone after your child brings in their own deposit to the bank (limit 1 deposit per month) and other events sponsored by the State Bank of Bottineau. We are working to provide free movie passes, tubing & other activities in the community. We are looking forward to providing this for our customers and future customers! If you have any questions about the Bears Club please call the bank at (701)228-2204 and ask for Hunter Milbrath.
